

July 22, 2020

Dear Families,

On Friday, July 17<sup>th</sup> and Saturday, July 18<sup>th</sup>, we conducted testing of all employees and residents. In the results, all residents tested negative for COVID-19 and one employee tested positive.

On Tuesday, July 22, we communicated with the durable power of attorneys and residents who had direct contact with the employee. If you did not receive a phone call from us yesterday, that means your loved one did not have direct or indirect exposure. All employees are wearing personal protective equipment (PPE) in the houses with the potential exposure. The PPE is changed between each apartment to prevent cross contamination.

We will be calling all power of attorneys today about the negative COVID-19 results.

Kansas Department of Health and Environment and Wyandotte Public Health Department have been notified. We will be conducting another COVID-19 test for all residents and staff Thursday or Friday this week. The tests will be provided by the health department.

Thank you for your support during this time.

Sincerely,

Heather Callahan  
Community Leader
